THE MINSTRELS TONIGHT.

Gainesville Assured of One of the Finest Performances Ever Staged.

A great program has been arranged for tonight's minstrel show by local stars. Reserved seats have been on sale at Avera's since Wednesday, and the advance sale shows that the minstrels will have a record-breaking crowd. Plenty of good seats left, and extra seats will be put in today, so that everyone will be accommodated.

Robert E. Kennedy is in charge of the show and says everything has been arranged so that there will not be the slightest hitch anywhere. Kennedy has worked very hard with the boys, and now has the minstrels running in a truly professional style. The grand military opening has never had its equal in this city. Hale, Tench, Seagle and Kennedy will take care of the ends, while Carter, Wheeler, Wilcox and Burnett will entertain the audience with the latest ballad songs. The opening chorus and finale will be composed of military songs. The second will be composed of catchy acts, Doyle and Tench showing Herman the Great off in great style, the comical quartette, the burlesque baseball act, Cadet Morrish as "Louie Oehenheimer," a German sailor in trouble, the performance concluding with the Hotel De Bughouse, with the following caste of characters: Proprietor Brown, Frank Hale; Senator Jones, Robert Kennedy; Bill Blivers, John Seagle; Jack Neverpay, Fletcher Burnett.

The curtain will rise at 8:30 and everyone who expects to attend is requested to be seated by that hour.

The prices will be 50c for reserved seats and 35c for the gallery.

BRONCHITIS.

Everybody Knows What it is, But Everybody Does Not Know What Will Cure it.

W. M. JOHNSON TELLS THE PEOPLE OF GAINESVILLE.

Asked one day in his store the question, "What is good for bronchitis?" Mr. Johnson, our well known druggist, answered, "The best way I can tell you is to ask you to read this letter from Miss Anna Ray of Bangor, Me. We have lots of such cases right here at home."

It read as follows: "For five years I was troubled with a terrible cough and bronchitis. I tried a great many different preparations without getting relief. I could not sleep, and I became so weak I could hardly walk, and coughing day and night. Then I took Vinol. What a godsend that first bottle was! I had not taken half of it before I noticed a change for the better. I took four bottles in all and am entirely cured, and in perfect health."

"Now I have been talking up Vinol to the people of Gainesville for a long time," continued Mr. Johnson, "and I suppose some people think I am crazy on the subject, but really I hear such marvelous results from Vinol all the time that I believe it to be the greatest remedy for coughs, colds, bronchitis and all throat and lung troubles that we have ever sold in our store. It never disappoints people, and I do like to sell a thing that gives satisfaction. Vinol is cod liver oil medicine without the oil, and whenever old fashioned cod liver oil preparations will do good, Vinol will do more good, for it is delicious to the taste and powerful as a curative agent."

"I wish every person in Gainesville who is overworked, run down, debilitated, every old person, every weak woman, every sufferer with fall colds, bronchitis or incipient consumption, every nervous, irritable person or any one suffering with stomach troubles, would take advantage of my guarantee to refund the money if Vinol does not help them and restore them to health. Please call at our store and learn more about it." W. M. Johnson, druggist.

THEY SURVEYED THE ROAD.

Commissioners Dampier and Pedrick Make Inspection of New Road.

County Commissioners John G. Dampier and C. O. Pedrick made a tour of inspection of the government object-lesson road, which is being constructed on the Paradise road, Wednesday afternoon, and were very much pleased with the work so far accomplished. They have arrived at the conclusion that Government Expert Dodge, who is superintendent of the government road-building, knows a thing or two about the work, because he has given the county the benefit of one of the finest "stretches" of road ever built in the South. Mr. Dodge has been in the road-building profession for many years, and is regarded as one of the most competent in the country.

"I am very much impressed with this object-lesson road as far as it has gone," remarked Chairman Dampier to The Sun reporter. "The only objection I have to make is that it is only a mile, and another objection is that the county has only \$1,200 to complete the balance, about a mile and a half. I think it the duty of the people to offer subscriptions to complete this road, and many of them have already responded liberally to the request. I hope every person interested will give us what he can, and by this means it may be possible to continue the work."

Commissioner Dampier is thoroughly converted to hard roads, and declares they are the first steps of civilization and advancement in any section.

Incredible Brutality.

It would have been incredible brutality if Charles F. Lemberger of Syracuse, N. Y., had not done the best he could for his suffering son. "My boy," he says, "cut a fearful gash over his eye, so I applied Bucklen's Arnica Salve, which quickly healed it and saved his eye." Good for burns and ulcers too. Only 25c at all drug stores.

Postmasters Are Appointed.

Washington, March 2.—The president today sent to the senate the following nominations:

Postmasters: Georgia—James T. Shibley, Milledgeville.

Oklahoma—Wiley C. Shedden, Mangum.

Pensioner of 1812 Dead.

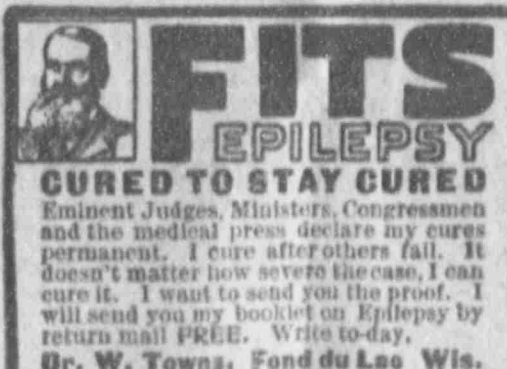

Dallas, March 2.—Mrs. Matilda Moore, 94 years old, one of the few remaining pensioners of the war of 1812, died from blood poisoning caused by a pin scratch. Her husband, Ziza Moore, served in the war of 1812 from Tennessee and his discharge bears the signature of General Andrew Jackson.

Gives Health, Vigor and Tone.

Herbine is a boon for sufferers from anemia. By its use the blood is quickly regenerated and the color becomes normal. The drooping strength is revived. The languor is diminished. Health, vigor and tone predominate. New life and happy activity results. Mrs. Belle H. Shirel, Middlesborough, Ill., writes: "I have been troubled with liver complaint and poor blood, and have found nothing to benefit me like Herbine. I hope never to be without it. I have wished that I had known of it in my husband's lifetime." 50 cents. Sold by W. M. Johnson.

The First Elevators.

The idea involved in our modern "lift" or "elevator" was anticipated in the middle of the seventeenth century by Velager, who also established the first letter boxes in Paris in 1653. Velager's lift was in demand until a mishap occurred to the king's daughter at Versailles. The mechanism failed to work when she was halfway up, and there she stuck for three long hours until the servants could break away the wall to release her. His "flying chairs" then fell into disrepute. The apparatus was simple in the extreme; just a chair attached to a rope which was passed over a pulley, with a weight as a counterbalance at its other end. In 1869 some one brought out as a new invention an imitation of this primitive lift, which has developed into our hydraulic or electric apparatus.
